What’s New and Important in Oral Pathology

Saturday, January 10, 2015, 8AM - 5PM
Sunday, January 11, 2015 8AM - 12PM
St. Petersburg, FL

Dr. Donald Cohen received his DMD degree from Washington University School of Dental Medicine. He then trained in oral pathology at Temple University School of Dentistry receiving an MS in Oral Biology and a Certificate of Specialization in Oral Pathology. He obtained his MBA degree summa cum laude from the University of Nebraska. Dr. Cohen then was awarded a Robert Woods Johnson Faculty Fellowship in Health Care Outcomes and Quality. He is the only DDS to receive this specific fellowship. As part of his fellowship he trained at Johns Hopkins University in Baltimore, Maryland and LDS Hospital in Salt Lake City, Utah carrying out several pioneering outcomes studies.

Dr. Cohen is Professor and Division Head of Oral & Maxillofacial Pathology at the University Of Florida School Of Dentistry. He is board certified in Oral and Maxillofacial Pathology and is the Director of one of the largest multi-state biopsy services and has a private practice limited to Clinical Oral Pathology at the University of Florida. He also co-directs the residency in Oral & Maxillofacial Pathology at UF College of Dentistry. He has received numerous teaching awards, including several college and university wide. In 2002, Dr. Cohen was nominated for the University of Nebraska system wide teaching Creativity Award. He is a sought-after speaker and has given 100’s of lectures on the topic of Oral Medicine and Oral Pathology at various states, regional and national meetings. Dr. Cohen has also published widely in these same topic areas. He has also served as a consultant to Proctor & Gamble, Ameritas Life Insurance, Delta Dental and most recently to Merck & Co. on the topic of osteonecrosis of the jaws from oral bisphosphonates.

Dr. Neel Bhattacharyya completed his oral and maxillofacial pathology training and received a master’s degree from the Indiana University School of Dentistry. Dr. Bhattacharyya received his D.D.S. degree from the University of Nebraska Medical Center’s College of Dentistry. He is a diplomate of the American Board of Oral and Maxillofacial Pathology. Dr. Bhattacharyya taught at the University of Nebraska Medical Center for six years before moving to the University of Florida College of Dentistry in the Department of Oral Diagnostic Sciences since 2003. He is the recipient of multiple Teacher of the Year awards at UF including 2004, 2011 and 2014. He is the Director of the Oral & Maxillofacial Pathology Residency Program at the UF College of Dentistry and recently completed a three year term on the Executive Council of the American Academy of Oral and Maxillofacial Pathology. Dr. Bhattacharyya is actively involved in a large clinical oral pathology practice and biopsy service and has authored or co-authored more than 90 papers and book chapters that cover a diverse range of topics addressing both clinical and microscopic aspects of oral and maxillofacial pathology. He is actively involved in several NIH and industry-funded research projects, studying bisphosphonate-induced osteonecrosis of jaws, molecular and clinical aspects of precancerous oral lesions, animal model of polymicrobial periodontal disease and its relationship to systemic disease and Sjögren’s syndrome. Dr. Bhattacharyya has lectured extensively throughout the state as well as nationally and internationally. In addition, he is also the coordinator of International Education at the UF College of Dentistry, directing all the international humanitarian mission trips.
Dr. Lyndon Cooper serves as a professor and current director of the Graduate Prosthodontics Program. He also has an adjunct appointment at the UNC School of Medicine and is a member of the Department of Biochemistry and Biophysics. He is the director of the Bone Biology and Implant Therapy Laboratory and actively participates in the UNC Dental Faculty Practice. In 1996, Dr. Cooper became a diplomate of the American Board of Prosthodontics. A recipient of University, corporate and NIH funding, Dr. Cooper and his colleagues continue to investigate the cellular basis of bone formation. His clinical interests focus on the development of cell based tissue engineering for clinical bone formation and the immediate loading of dental implants. Dr. Cooper received his D.D.S. degree in 1983 from NYU and his Ph.D. from the University of Rochester before earning his prosthodontics certificate from Eastman Dental Center in 1990. He then completed a two-year research fellowship at the National Institute of Dental Research in Bethesda, Md.

Prague, Czech Republic

Saturday, September 12, 2015, 8AM - 12PM
Sunday, September 13, 2015, 8AM - 12PM
Monday, September 14, 2015, 8AM - 12PM

Our 51st annual meeting will be in Prague, Czech Republic and as such we are honored that local faculty of the Charles University Dental and Medical Colleges will present our programs.

These programs are being scheduled by Prof. Zdenek Broukal, MD, PhD and chief Prof. Rene Foltan, MD, PhD, both of the School of Dental Medicine, 1st Faculty of Medicine, Charles University in Prague.

Please consult our web site at www.WoehlerResearch.org for updates on the specifics of this series of programs.
The Woehler Research Group 51st annual meeting will be held in the enchanting medieval city of Prague in the Czech Republic.

Our opulent five star hotel, the Alchymist Grand Hotel and Spa, is located in the historic section of the city adjacent to the United States Embassy and within walking distance of many of the historic sites.

Be prepared to have your senses aroused by the sights, sounds, aromas and tastes of the “Golden City.” Everywhere you look is another breath taking panorama consisting of a millennia of tradition mixed with a modern, dynamic and highly cultural present. Almost all architectural and artistic styles have left their mark on Prague making it a harmonic whole. The food and beverages are extraordinary, especially the fragrant and rich full-bodied local beers. The Czech Republic’s claim to fame is the highest per capita beer consumption in the world.

Be prepared to have a wonderful time exploring the opportunities of this ancient city while learning from speakers joining us from the local medical and dental colleges and sharing with your Woehler brethren.

The Woehler Research Group is the oldest continuously registered dental study club in the United States. Two thousand and fourteen marks the fiftieth year of providing relevant continuing education to its members and guests.

The Group offers, to selected guests, a yearly contract, which traditionally includes two weekend seminars of two days each, usually in Florida; and an annual fall meeting of three days at unique setting such as those listed in this brochure.

Continuing Education Program approved
FDA No. 50-5551 and AGD No. 215430

PACE Program Approval for Continuing Education Approved
